

ARRL CEO Presentation at PSU Shenango

American Radio Relay League, Chief Executive Officer, Tom Gallagher, NY2RF spoke at the Penn State Shenango Campus, Sharon, PA. The presentation was attended by approximately 80 amateur radio operators from clubs across the WPA section, Ohio and others. QCARC had two representatives at the event.

After Mr. Gallagher's presentation, he opened the floor for questions and comments. An interesting challenge was presented to the attendees. The challenge was, while enjoying the coffee and donuts, folks were encouraged to introduce themselves to someone they didn't know. This would serve both parties in expanding their amateur radio acquaintances.
